

*It's that time of year again!*

## Annual Scraps Club enrollment is open.

### Who are we?

The SFEA Scraps 'N Stamps Club is open to all SFEA members including spouses and retirees. Older children are also welcome to join, we just ask that they be able to stay focused and work quietly on their own.

The club was originally founded to provide fellowship for those interested in paper arts, which mainly consisted of scrapbooking and card making. In recent years paper arts have evolved. We now have members involved in many different forms of paper arts including digital, mixed media, altered books, and 3 dimensional projects. We welcome all artists and look forward to learning from you.

### What do we have to offer?

- Informal gatherings throughout the year (crops) where you can get away and focus on your projects
- Occasional classes, make and takes and road trips
- A chance to socialize and meet others with similar interests
